

Endless Possibilities | for renovation and new buildings

All aluplast laminations feature the innovative cool-colors technology. This technology guarantees considerably improved performance characteristics and an increased durability of the surfaces. cool-colors consist of especially developed and patent-protected pigments that significantly reduce the surface temperature of laminated windows. aluplast natura and aluplast World of colour offer a variety of more than 40 lamination films for an individual design and colouring of your facade.

Eye-catcher in your facade

Make your facade turn heads...

Lamination Overview | warm

description (abbreviation)	aluplast no. one-sided (base material colour)	aluplast no. two-sided (base material colour)	colour code (similar to RAL-colour)
noce sorrento natural life-like (nsn)	276 (base material: white)	176 (base material: ochre)	436-3041
mountain pine (bki)	255 (base material: white)	155 (base material: ochre)	436-2009
douglas fir (dl)	211 (base material: white)	111 (base material: brown)	436-2022
cherry amaretto life-like (ca)	224 (base material: white)	124 (base material: ochre)	436-3043
sipo (sipo)	270 (base material: white)	170 (base material: brown)	436-2060
oak wood mocca (mo)	218 (base material: white)	118 (base material: brown)	436-2048
teak arte life-like (ta)	271 (base material: white)	171 (base material: brown)	436-3052
special oak (es)	201 (base material: white)	101 (base material: brown)	436-2005
rustic oak (er)	217 (base material: white)	117 (base material: brown)	436-2012

Please note:
Gaskets of laminated profiles are always black.

Lamination Overview | modern

description (abbreviation)	aluplast no. one-sided (base material colour)	aluplast no. two-sided (base material colour)	colour code (similar to RAL-colour)
bog oak (me)	206 (base material: white)	106 (base material: brown)	436-2007
walnut balsamico life-like (wb)	216 (base material: white)	116 (base material: ochre)	436-3042
teak terra life-like (tet)	274 (base material: white)	174 (base material: brown)	436-3051
teak silver grey life-like (tsg)	273 (base material: white)	173 (base material: white)	436-3054
agate grey sand texture (acg)	264 (base material: white)	164 (base material: white)	436-7037 (similar to RAL 7038)
chestnut brown (mb)	245 (base material: white)	145 (base material: brown)	436-5025 (similar to RAL 8017)
white wood texture (weho)	259 (base material: white)	159 (base material: white)	436-1809
pure white (rw)	244 (base material: white)	144 (base material: white)	436-1915 (similar to RAL 9010)
oregon3 (or3)	215 (base material: white)	115 (base material: brown)	436-2053

Despite the greatest care being taken in manufacture, slight colour deviations may occur.
Due to printing variations, the colour and surface texture of the laminated window profiles may deviate from the printed lamination samples shown in this brochure.

Lamination Overview | colourful

description (abbreviation)	aluplast no. one-sided (base material colour)	aluplast no. two-sided (base material colour)	colour code (similar to RAL-colour)
anthracite (aga)	240 (base material: white)	140 (base material: white)	436-5003 (similar to RAL 7016)
brilliant blue (bb)	247 (base material: white)	147 (base material: white)	436-5026 (similar to RAL 5007)
quartz grey sand texture (qgg)	265 (base material: white)	165 (base material: white)	436-7047 (similar to RAL 7039)
silver brushed life-like (sig)	266 (base material: white)	166 (base material: white)	436-1002 (similar to RAL 9023)
grey (ga)	234 (base material: white)	134 (base material: white)	436-5049 (similar to RAL 7001)
quartz grey brushed (qua)	267 (base material: white)	167 (base material: white)	436-1005 (similar to RAL 7039)
pastel green (pg)	258 (base material: white)	158 (base material: white)	436-5020 (similar to RAL 6021)
silicia sand texture (silg)	272 (base material: white)	172 (base material: white)	436-6029
cream (cr)	268 (base material: white)	168 (base material: white)	436-5001 (similar to RAL 9010)
black grey (swg)	269 (base material: white)	169 (base material: white)	436-7023 (similar to RAL 7021)
